REACH LABEL (Least Expensive)

Custom Reach Labels made to order with your own artwork! High-quality matte or glossy stickers capable of directing your users exactly where they need to be. Equipped with 3M adhesive on the back to stick on flat or curved surfaces. Note that sizes range from 1"-4" diameters but the smaller the label the more challenging it will be to scan. We recommend the 4" diameter in auditoriums as they have the best scan strength.

4" Dia.

3" Dia.

2" Dia.

1" Dia.

QUICK LOOK

DESIGN HIGHLIGHTS

REACH PLATE (Best-Seller)

Custom Reach Plates made to order with your own artwork! High-quality, matte, rigid discs meant to give you secure installation to any surface. Can be equipped with 2 screw holes to allow this product to be screwed onto surfaces that are hard to adhere to. Also, these products can have adhesive, a magnet, or nothing on the back for various mounting practices. Note that sizes range from 1"-4" diameters but the smaller the label the more challenging it will be to scan. We recommend the 4" diameter in auditoriums as they have the best scan strength.

DESIGN HIGHLIGHTS

REACH DISC (Highest Quality)

Custom Reach Discs made to order with your own artwork! High-quality, glossy, rigid discs that will certainly impress your users. Can be equipped with 3M adhesive on the back to stick on flat surfaces or no adhesive for use-cases where they will be handled by people often. Note that sizes range from 1"-4" diameters but the smaller the label the more challenging it will be to scan. We recommend the 4" diameter in auditoriums as they have the best scan strength.
